President

WELCOME TO AEMPIN

For over Twenty-five years Americas Empowerment Institute "AEMPIN" has continuously developed its efficiency and augmented its resources. In doing so, it has become a leading project management, telecommunications, finance, procurement, public governance and sustainable development training firm.

In addition to our headquarters in Houston, Texas USA, AEMPIN operates a network of training centers around the world in London (UK), Dubai (UAE), Abuja (Nigeria) and Madrid (Spain). Yearly we welcome over 1000 delegates from public and private sectors. The outstanding proficiency of our team of permanent consultants in conjunction with our administrative staff, guarantees a highly professional training and a reliable assistance during your stay.

Moreover, drawing on our experience and reputation, we are proud of having developed in cooperation with Texas Southern University College of Continuing Education, four Professional Certification Programs for qualified individuals: Certified Telecoms Managerial Specialist, Certified Utility Managerial Specialist, Certified Procurement Specialist and Certified Regulation Managerial Specialist.

AEMPIN is more than a training and consulting school. We are a capacity building institute. We take enormous pride in our ability to deliver practical results for our clients. I encourage you to browse through our website www.aempin.org and learn more about AEMPIN. Please contact us.

ABOUT AEMPIN

Americas Empowerment Institute (AEMPIN) is a world leading capacity building firm with over 25 years' experience in providing specialized and highly rated training in the areas of information technology, architecture, law, governance, public procurement, leadership & management, finance, regulation, utility and telecommunications. AEMPIN has trained over 35,000 officials from 63 countries across the globe.

ACCREDITATION

Americas Empowerment Institute is approved and accredited by Career Schools and Colleges of the Texas Workforce Commission. Career Schools and Colleges has statutory responsibilities in Texas regarding non-public, post-secondary educational institutions. Career Schools and Colleges are regulated under Title 3, Texas Education Code, Chapter 132, and Title 40, Texas Administrative Code, Chapter 807. For more information contact: Career Schools and Colleges, 101 E. 15th Street, Austin, TX 78778 or call 512-936-3100.

Texas Southern University (TSU) is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, masters, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Texas Southern University.

TEXAS SOUTHERN UNIVERSITY

AEMPIN and TSU are responsible for the overall management and administration of each professional certification program, including participant enrolment and counselling, development and maintenance of quality standards, and individual course approval. To date, over 160 professionals have completed certification with over 119 more slated over the next two years.

AEMPIN is registered with NASBA as a sponsor of CPE.

Nelson Ilodigwe, Ph.D.

Executive Director

Glen Woods, Ph.D.

Global Initiative Director

Professor Wythel Price

Program Chair and Lead Faculty

AEMPIN employs leading faculty and staff

Dr. Ilodigwe is responsible for strategic planning and global management of the firm. His primary role is to oversee the day-to-day implementation of the corporate strategic plan. In addition to his corporate management, Dr. Ilodigwe has over twenty-five years' experience designing, directing, and teaching executive training courses and workshops in private sector development, small business development, government policy, non-profit management, international business, and technology innovation. He has personally designed curriculum for, and taught in over 250 workshops, with durations of one to four weeks. He has trained more than 20,000 participants from 63 countries worldwide. Dr. Ilodigwe, a versed international development expert in capacity-building and policy advisory, was Senior Manager Democracy Program at Jimmy Carter Center and ex-Director of Africa and Middle East Project at Clinton Global Initiative. Dr. Ilodigwe received his B.A. in Political Science and M.P.A. in Public Administration from the Texas Southern University and Doctorate of Philosophy in Management and Organizations from the University of California at Los Angeles (UCLA).

Dr. Glen Woods is the Global Initiative Director. He leads capacity building and consulting efforts at the Americas Empowerment Institute, focused on developing countries and emerging economies. He brings over 25 years of experience in the public sector, focusing on government regulations, public utilities, and telecommunications where he led the business development and relationship building across all infrastructure sectors, including power and energy. Mr. Woods brings with him an intimate knowledge of public sector governance in the United States and Australia, innovative financing programs of the U.S. federal government, and an understanding of political decision making, international project finance, economics, strategic planning, and business negotiations and communications. During his career, he has advised on numerous utilities in the U.S and Canada. He has a Master of Arts in International Economics from the Georgetown University, Washington, D.C, and a Doctor of Philosophy in Information Technology and International Relations from Stanford University.

Professor Wythel Price is Program Chair and Lead Faculty at Americas Empowerment (AEMPIN). Under the direction of the Executive Director, she is responsible for developing and maintaining the quality and effectiveness of program curriculums. She works with faculty to promote continuous improvement of the quality of instruction and develops recommendations regarding scheduling, resource allocation, course delivery and instructional program planning. She received her Master of Arts in Organizational Management from the University of Phoenix in Phoenix, Arizona. Throughout her 30-year management career, she has received numerous IT certifications in Network Implementation and Project Management. She has had successful careers in Sales, Implementation and Call Center Management with AT&T and Xerox Corporations. In addition, she has served as a trainer for United Airlines during the Continental/United merger, call center trainer for the Methodist Hospital Nurse Triage Unit and was a Customer Care Manager with Continental Airlines. She served as the former president of AT&T's Community Network serving more than 15,000 minority employees and has been an editor for two major publications.

Certified Telecoms Managerial Specialist

Location: Houston, Texas USA

CEUs: 24.0

Professional credentials assure customers, organizations leadership and business associations, that they are working with people who are knowledge-able and possess current competencies in their respective industries. Participants will receive a "stamp of excellence" which represents their ability, aptitude and distinction among their peers.

Benefits for Participants

- Opportunity to receive valuable training in a quality learning environment
- Develop lifelong learning habits and a wide range of skills making them more Marketable
- Obtain recognition for their achievements, talent and hard work
- Provides a building block for those who wish to advance their education and professional development.

Benefits for Employers

- Helps to build a more talented staff
- Aids in employee motivation and creating a positive and professional work environment
- Helps to identify those employees that want to succeed and aids in succession planning.

Target Audience

- Telecommunications managers and personnel involved in telecoms regulation and policy-making
- Telecommunications senior official in any department
- looking to complement their skill-set by gaining a good understanding of telecommunications regulation

Overview

The Certified Telecoms Managerial Specialist Program was designed to transform participants into subject matter experts in the field of Telecommunications by further developing the core knowledge, skills and abilities that telecommunications professionals require. Our goal is to use knowledge management and global best practices to give industry leaders, managers, and government officials that are responsible for the telecommunications process, the confidence to direct teams to achieve the organization's business goals through use of key telecoms concepts, principles and policies to which ICT authorities are expected to adhere. We will do this by bringing forth various issues that dominate telecommunications, as we identify the potential challenges, evaluate various telecommunications processes, and recommend strategic techniques and tactical methods, that are internationally accepted standards and procedures.

Course Objective

The objective of this course is to enable telecommunications professionals to effectively understand and overcome governance issues, manage ethical issues and anticipate disruptive change while working towards the creation of transformational change in order to influence the future of the organizations, companies and communities in today's telecommunications environments. It focuses on fourteen telecommunications best practices which offer a proven methodology that enables effective telecommunications management. The course includes discussion and analysis of the key issues and tools available to ensure a fair and equitable telecom environment.

Objectives

- Obtain a sound understanding of the global and competitive telecommunications environment and its impact on the activities of a regulator
- Understand the key principles of regulation including competition policy and licensing and the role and responsibilities of the regulator in these areas
- Understand the role and responsibilities of the regulator with respect to interconnection and tariffs
- the regulatory issues represented by scarce resources including numbering and spectrum management
- Understand important dispute resolution mechanisms and the role of the regulator in settling disputes
- Gain an understanding of the tools available to deal with the regulatory challenges of today's world
- Overall our objective is to ensure participants gain an educational advantage and a greater satisfaction through increased learning in acquiring a more professional approach to their work.

The Certified Telecoms Managerial Specialist Course Outline Includes the Following topics:

- Overall Picture of the Global and Competitive Telecommunications Environment
- Regulation. »» Experiential Exercise: The Regulatory Strategy Checklist
- The Regulator
- Competition policy and Safeguards Price Regulations
- Licenses »» Experiential Exercise: Review and Discussions: Typical Steps in a Competitive Licensing Process
- Network Access and Interconnections
- Local Loop Unbundling (LLU)
